WHAT IS EDGEWIZ?

EdgeWiz (www.edgewiz.com) is a FREE stock trading simulator that teaches those new to the stock market about investing using real data and up-to-date news on what's happening in business.

EdgeWiz is a product of The Edge Media Group which includes Malaysia's leading business and investment weekly The Edge Malaysia and The Edge Financial Daily. EdgeWiz has been endorsed as an investor education tool by the Securities Commission of Malaysia under the SC's InvestSmart initiative.

Players invest in real companies under real market conditions. EdgeWiz provides actual data from stock exchanges, with a 15-minute lag.

Each player is allocated \$100,000 in virtual currency that can be invested in stocks listed on Bursa Malaysia.

There are various investment games in the market but what makes EdgeWiz stand out is that it is an interactive online platform that integrates Social Media, Stock Trading Game and Business News.
