

Student Name	Project Title:
Siow Fuk Unn	Text Document Summarization System (using Template for History Articles)
Lee Sai Mun	Text Document Summarization System (for News Articles)
Thong Lap Kok	High School Grading System
Lieu Thin Seng	SPM Grading System for Malaysia Secondary Schools
TAN YUEN WAI	Business Intelligence Software Selection Tool
Phun Hee Seng	Window-based UTAR CGPA Grading System
H'ng Yam Huat	Family-based VOD (Video-On-Demand) System
Tang Pik Kee	Property Agent Listing Portal
Hoo Wei Chinn	3D UTAR Virtual Campus
Tan Pheiv Lingh	UTAR Disaster and Rehabilitation
Toh Pey Chyn	Videos Rental Management System for "Stop and Stick Company"
Ngow Yeun Kae	Web based CRM for UTAR : sales and marketing module
Chan Kim Imm	Analyse and Design rectifier
Caled Fong	Analyse and Design DC-AC Converter (inverters)
Chen Sing	Analyse and Design DC-AC converter (oscillators)
Quah Ching Liang	Map-based Complaint & Report System (MCRS): Web Portal
Hoo Tien Seng	Map-based Complaint & Report System (MCRS): Tracking Module
Ewe Che Phing	Java Educational Zone: Problem-Based Approach
Tan Wei Jing	Construction Management Resource System (CMRS): A Web Based Approach
Lau Ming Ley	3D Timetabling Solution for University: Lecturer, Student & Room
Teoh Zhi Xian	Electronic Document Repositories Management System Using Pattern Recognition and Machine Learning Approaches
Leong Jo Yee	Input Query Analysis System for Case-Based Reasoning Using Pattern Recognition Techniques
Then Tze Jien	Knowledge-Based Maintenance for Case-Based Reasoning System Using Machine Learning Approaches
Lee Wai Wai	The Implementation of Path Protection for Uninterrupted Real-Time Services
Toni	The Implementation of Path Protection for Uninterrupted Real-Time Services
Chong Vui Sing	ERP (Enterprise Resource Planning) - CRM (Customer Relationship Management)

Yap Kok Kui	ERP (Enterprise Resource Planning) - CRM (Customer Relationship Management)
Wang Jia Yi	ERP (Enterprise Resource Planning) - Inventory System
Wong Leok Kok	ERP (Enterprise Resource Planning) - Inventory System
Kwong Soon Quan	ERP (Enterprise Resource Planning) - Administration System
Low Siow Teng	ERP (Enterprise Resource Planning) - Administration System
Tan Pei Jie	Portal Development (Manufacturing) (Joomla)
Mak Kit Tshung	Portal Development (Manufacturing) (Joomla)
Ho Chee Choon	Portal Development (Manufacturing) (Joomla)
Lim Hong Chan	Portal Development (Manufacturing) (Joomla)
Lee Shi Qiang	Computer-aided Learning (CAL) for Malaysia Secondary School Physics Curriculum (Learner-centered Approach)
Lee YiWen	Interactive Course Contents on Form 5 Mathematics using Blended Learning Approach.
Chong Sim Yin	The Study and Development of Interactive Multimedia Application for Turtle Conservation Project in Terengganu.
CHONG GUI MING	Development and Analysis of Digital Watermarking System
Chan Choong Yoong	Network Configuration File Generator
Tan Wei Ming	Converting Linksys WRT54G Wireless Router into CISCO-like Router
Chew Zhen Fun	LAN Devices Mapping Software Program
Sandy Christian	Data encryption and decryption program for removable storage devices
Teoh Jun Zeng	Distributed system software for network management (client)
Siew Thiam Loong	Distributed system software for network management (server)
Koh Song Sang	Web Application for Distance Learning(authentication, chatting program, user friendly interface)
Lu Sue Shik	Web Application For Distance Learning (download/upload, online exam, real-time notice board)
Wong Wei Lun	Computer Hardware & Software Retail System - Database Module
Chin Chee Meng	Computer Hardware & Software Retail System - Webpage Module
Chiew Zhi Chong	Biometrics Fingerprint Class-Attendance System for UTAR
Yeap Kwan Lin	Biometrics Fingerprint Library system for UTAR.
Chung Tze Bin	Information Retrieval Using Boolean Search and Document Clustering Method.
Kor Shye Len	MIPS Multicycle Datapath Design
Lee Tzu Hui	MIPS Multicycle Controller Design

Lim Meng Chee	Mobile Nutrition Diary with Diet Monitoring and Recommendation Features. Title is not available yet.
Lau Sai Mun	Reducing Average Waiting Time for Canteen-like Food Ordering System using Queue Theory.
Nah Yunn Shiong	Simulation and Modeling of Non-equilibrium Thin-body and Thick-body Nanomos
Chew Jeng Tyng	Simulation and Modeling of Equilibrium Thin-body and Thick-body Nanomos.
Chai Yoke Seng	Simulation and Modeling of Low Temperature Nanomos
Chong Beng Pin	Development of Multimedia Online Exhibition System
Loo Jan Wei	Development of KM portal for higher education institutions in Malaysia.
Ang Swee Wei	Development of KM portal for higher education institutions in Malaysia.
loon Hui Boon	Community Web Portal
Mathew Tan Honn How	Early Childhood Learning Portal
Poh Lam Shin	Early Childhood Learning Portal
Liew Yeh Po	Intergrated Network Data Generator (IP Datagram Header)
Lee Kah Heng	Intergrated Network Data Generator (TCP Datagram Header)
Tay Hui Fang	Development of Game contents from the perspective of Malaysia culture and preference
Law Yew Thien	
Lim Kim Chang	Second Hand Web Store
Beh Ming Tong	Desktop Computer
Khor Kai En	Mobile ordering
Edward Cheang	Restaurant System
Khor Xi Xian	Restaurant Systems
Lum Kok Leong	Face ID Verification
Wong Wai Choong	Identity Card Information Retrieval
Chuah Cheng Yen	Automated Cashiering and Point-of-Sales RFID System
Jonathan Narain Chandran	Barcode Recognition System Using Image Processing for Alternative Angles and Orientations
Lew Tian Fat	DCCT Lab Inventory Tracking System
Chong Kin Hoe	Engineering Lab Management System
Lin Chyi Shing	Sales and Inventory System for Chintak Sendirian Berhad
Pon Heng Chuan	One Touch Mobile-based wireless Food Ordering System
