

Ho Lai Yee (Alicia)

Lecturer

BSc (Hons), MSc (USM)

Email: holy@utar.edu.my

Research of interests

1. Population dynamics of mosquito vectors
2. Insecticide susceptibility of mosquito vectors
3. Biological control of mosquito larvae using *Bacillus thuringiensis israelensis*
4. Larvicidal properties of common plants against mosquito vectors

Professional Involvement

- Member of the Malaysian Society of Parasitology and Tropical Medicine (MSPTM)

Publications

- Ho Lai Yee, Ahmad Ramli Saad and Zairi Jaal. "Leaf Litter Decay Process and the Effects on Growth Performance of *Aedes albopictus* (Skuse) Larvae", 41st Annual Scientific Seminar of Malaysian Society of Parasitology and Tropical Medicine, 10 – 11 March 2005, Kuala Lumpur, Malaysia.
- Ho Lai Yee and Zairi Jaal. "The Bionomics of *Anopheles* in a Rural Area of Grik, Hulu Perak, Malaysia", The 5th Regional IMT-GT UNINET Conference and International Seminar 2006, 22 – 23 June 2006, Medan, Indonesia.
