INDUSTRIAL TRAINING

Objective: To provide the student an opportunity to work in the industry and to receive practical training under the supervision of qualified engineering or technical staff.
Duration and Period of Training

• The training duration is 3 months.
• The period is from September to December each year.
Insurance

• Class of Insurance: Group Personal Accident (GPA)

• Territorial Limit: Worldwide
  − "Insured Person" for the purpose of this insurance is defined as student who is registered with the college to pursue a course of studies, which include all the industrial trainings and/or industrial training placements.
SUM INSURED (PER PERSON)

- 01 Sum Insured  RM  35,000
- 02 Medical Expenses  RM  2,000
  - Death
  - Loss of hand or leg or sight in one eye or both
  - Permanent total disablement from engaging in or attending to employment or occupation of every description
  - In respect of traditional medical treatment, the Compensation is limited to RM500.00
On completion of this unit, the students shall be able to:

- Relate engineering concepts to their work during industrial training.
- Develop soft skills like leadership, problem-solving, communication in a work environment.
- Enhance their understanding and the application of knowledge and skills in the working place.
SAMPLES OF COMMENTS

• On student’s performance
• Attitude towards work is positive. He is optimistic & fast learner. Meet expectations. Works with less supervision. Very active and intellectually good.
  – STATSChipPAC
  • James Low (UTAR Trainee)
• Overall, we are satisfied with both. They are able to perform the task assigned by superior. Learn things pretty fast and are able to self-sustain with the work being assigned.
  – Infineon Technologies Malaysia
  • Ng Chuan Fei, Lim Sheng Lwi (UTAR Trainees)
• Excellent team work. Able to achieve high level of management and technical skills and can works at minimum supervision.
  – Gleneagles Hospital (KL) Sdn Bhd
    • Soo Kian How, Lee Ying Hui, Lim Kien Heng (UTAR Trainees)
• Very hardworking employee, willing to learn new things. Willing to help out in whatever task given. Inquisitive & work well with superior & peers. Produce good quality work.

  – Osram Opto Semiconductors
  • Khoo Kai Boon (UTAR Trainee)
• I find my trainee to be hardworking, aggressive, and independent inspite of his speech & hearing impairment. In addition, he is a fast learner and produces the expected results
  – Renesas Semiconductor (Kedah) Sdn Bhd
  • Joachim Cheng Bing Lin (UTAR Trainee with hearing impairment)
SAMPLES OF COMMENTS

• On Industrial Training Experienced by Our Students.
• Work done is not directly related to field of study. However, I’ve learnt a lot about working in a production line and the job responsibilities of a process engineer.
  
• James Low (UTAR student)
• 3 months is a little too short for a meaningful experience, however, I gained a lot from this training, in terms of industrial skills, technical skills and work attitude.

• Kelvin Ng Jun Qiao (UTAR student)
